

# DAIRY REFORM

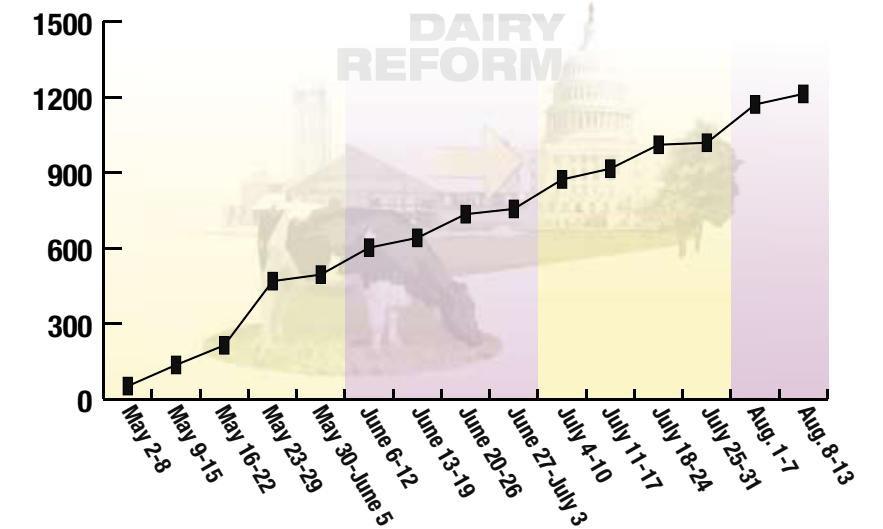

## Votes by state

The image to the left is a breakdown of the poll votes received by state. Major support for the Specter-Casey Bill in Pennsylvania, New York and New Jersey are due in large part to the efforts of Progressive Agriculture Organization's letter campaign that was explained in the article on page 29. The NMPF plan and DPSP had hubs of increased support near their place of origin.

## Votes by date

The graph below chronicles the voting over the life of the poll which began in May. While votes received online was constant throughout the poll, significant increases in poll voting from week to week can largely be ascribed to the voting-campaign previously referenced, which contributed 20, 30 or 40 mail-in votes at a time.

Norwegian Red sires  
**to maximize profit**  
 in your crossbreeding program

### Norwegian Red CROSSES WORLDWIDE

Get increased profits from Norwegian Red sires crossed with Holstein dams or with Holstein x Jersey dams due to:

- ✓ Improved Fertility
- ✓ Increased Survival
- ✓ Improved Mastitis Resistance
- ✓ Improved Calving Performance
- ✓ Improved Resistance to Other Diseases
- ✓ Increased Percentages of Fat & Protein
