

# Sperm Processor Pvt. Ltd.

Dr. Pramod Bajaj, Technical Director  
www.spermprocessor.com

Products offered by Sperm Processor Pvt. Ltd. were created to aid doorstep artificial insemination. The company's Sperm Warmer thaws semen on the farm, while its Sperm Meter helps to check sperm motility on site. This will be the company's first debut at World Dairy Expo, traveling here from India. It can be found on the Main Concourse of the Coliseum at booth MC 55.

**What does your company specialize in?**

**BAJAJ:** Our company is concerned with sperm gamete.

**What type of dairy producer does your product/service benefit the most?**

**BAJAJ:** Our products are related to any livestock A.I. services.

**How will your product/service make a dairy more profitable and/or more efficient?**

**BAJAJ:** Our products aid in doorstep (field) insemination and field quality control of frozen semen.

**What is the latest product/service you've released?**

**BAJAJ:** The Sperm Warmer is a mobile frozen semen thawing unit with battery backup of six to seven hours. The Sperm Meter is a semen analysis chamber that provides quantitative and qualitative assessment of sperm motility in terms of sperm concentration.

**What brought about its creation?**

**BAJAJ:** The field problems of artificial insemination.

**When was the company started?**

**BAJAJ:** 2004

**Where is the company's headquarters?**

**BAJAJ:** Aurangabad, India.

**What region of the U.S. do you serve?**

**BAJAJ:** This is our first introduction to the U.S. market.

**Why are you most looking forward to World Dairy Expo?**

**BAJAJ:** This is our first experience at World Dairy Expo. **PD**

**Call to add milk testing Apps to your dairy.**
