

## E-Z Way LLC

Brian Schowalter  
Inventor of the Pryin Brian  
www.ezwayllc.com

Changing milker inflations can be time consuming and sometimes a dangerous task. E-Z Way LLC is introducing a product that claims to make this job easier and faster. The Pryin Brian, an all-in-one tool, can cut milker disassembly time in half and is safer than using a knife. This tool can be found at the E-Z Way booth at World Dairy Expo. It will be located in the Coliseum, Arena Level at booth AL 125.

### What does your company specialize in?

**SCHOWALTER:** Producing the Pryin Brian.

### What type of dairy producer does your product/service benefit the most?

**SCHOWALTER:** All types.

### How will your product/service make a dairy more profitable and/or more efficient?

**SCHOWALTER:** It cuts milker disassembly time in half. It is safer than using a knife to cut the hoses off the milker.

### What brought about its creation?

**SCHOWALTER:** The need to make changing milker inflations easier and faster.

### When was the company started?

**SCHOWALTER:** February 2007

### Where is the company's headquarters?

**SCHOWALTER:** Dalton, Ohio

### Why the name?

**SCHOWALTER:** Our tool changes milker inflations the "E-Z Way."

### What region of the U.S. do you serve?

**SCHOWALTER:** All of the U.S.

### Why are you most looking forward to World Dairy Expo?

**SCHOWALTER:** It is a great opportunity to introduce a tool that will help dairymen who share the same problem in changing inflations. **PD**

## "The results have been tremendous"

*"The product helps the cows utilize more starch so you can feed more starch products and less protein. That's helped on a cost basis."*

Wayne Jarman  
Wilmont, SD

Besides saving money on vet costs, the P-One Program has beneficial bacteria that is unique to help cows maintain proper rumen pH for a healthy rumen.

The P-One Program™ is a feeding combination of P-One™ and DCP™.
